

I FOUND YOU

ADAM

Through every dark corner
Around every turn
After the times I failed
Every time I got burned

Thought I'd just keep on looking
But you were out of my sight
It's like trying to find Jesus
On a Saturday night

Then out of the blue
One look and at once I knew
You gave me the clue, and
I found you

And now you are here where I want you to be
You say that you think your life now is complete
We can sail around the world, in a ship made for two
Cause I found you
I found you

I searched the whole world over
Left no stone unturned
Didn't even know what to look for
But I thought I would learn

Then one day I just stopped looking
Wrote it off to bad luck
Time to call off the scavenger hunt
It was time to give up

Then out of the blue
One look and at once I knew
It was long overdue, but
I found you

chorus

People say there's a somebody out there for everyone
I've heard it so many times, so many times

Then out of the blue
One look and at once I knew
Dreams never come true, but
I found you

chorus
