

HURTS LIKE HELL

ADAM

She said it's over, don't waste your time
As she picked up her keys
She said the fighting is too much to take
Why can't you see?

I said you're bluffing like each time before
This is just one of them
I said I know that these times have been rough
But we'll make it through again

'Cause what will the children think
When they learn they have no home
And what will the neighbors say
When it seems the lights are off and no one's home

We've shared with each other all the moments of joy
From the first games of little league, from the first Tinkertoys
But now we've got to live through the worst of times as well
And it hurts like hell

Accept the truth, and get over the pain
It seems that's all I can do
It feels lonely without her here
In this quiet, empty room

I've lost my family, I've lost my wife
Depression's my best friend
Don't want to feel this the rest of my life
It's not what I intend

And what do the children think
Now that they have no home
And what do the neighbors say
When they see the lights are off and no one's home

We shared with each other all the moments of joy
From the first games of little league, from the first Tinkertoys
But now I've got to live through the worst of times as well
And it hurts like hell
