

SAVE THE WORLD

JIM MCGORMAN/ADAM

Help us save the world
Let's change the people
Help us save the world
Let's change the people

Homeless people livin' in the streets
Little children beggin' just to eat
There must be something we can do
It's up to me and you
Everybody seems to be at war
Never really knowing just what for
Newspapers like to tell it all
But they hide behind a wall

chorus

Kids are bringin' weapons into school
Skippin' class while breakin' all the rules
Why do they have to play this game
It always ends the same
Everybody's livin' for themselves
No one cares about nobody else
We've got to learn from our mistakes
I hope it's not too late

chorus

We all turn away
Ignore the problems we must face
We need to make a change
We've got to save the human race

chorus
