

THIS FAR

ADAM

Our relationship is anything but steady
Just not turning out the way it used to be
Every time I try to ask you if we're over
You smirk as if you mean to say

That I'm not everything you hoped for
And all that you need
Everything you thought I could be
I'm no knight in silver armor
Shining like a star
I'm not always there where you are
But tell me, how'd we make it this far?

You embody all that I've ever wished for
Your love is all I see when I dream
You remind me of a place I've never been to
Vivid pictures of a life I've yet to see

But I'm not everything you hoped for, and all that you need
Everything you thought I could be
I'm no knight in silver armor, shining like a star
I'm not always there where you are
So how'd we make it this far?

We've got something worth keeping
Don't throw it away
Such a waste to waste- just wait
We can try, we can try

And I'll be everything you hoped for, all that you need
Everything you thought I could be
I'm your knight in silver armor, shining like a star
I'll always be where you are
Cause that's how we've made it this far
